M.Krishna Bagavan

Full Stack Web Developer

Professional Summary

Dynamic full stack web developer with expertise in the MERN stack, excelling in building robust, scalable web applications. Adept at integrating cutting-edge technologies and utilizing Generative AI. Strong collaborative and problem-solving skills, with a rapid adaptability in mastering new tech stacks for optimizing workflows.

Projects

Spotify Website   Live Demo Link   Github Repo Link

JavaScript   React   Git   CSS3   HTML5

- Developed a responsive Spotify website using React and Tailwind CSS.
- Focused on creating pixel-perfect components for a seamless user experience.
- Built a fully functional and dynamic user interface ensuring design consistency.
- Integrated React Hooks and Router for efficient state management.

Zappos website   Live Demo Link   Github Repo Link

JavaScript   HTML5   CSS3   Git   React

- Created a Zappos website clone using HTML, CSS, Tailwind CSS, JavaScript, and React.
- Implemented React hooks, Router, and Context API for state management.
- Focused on creating an engaging online shopping experience with dynamic components.

Netflix Clone   Live Demo Link   Github Repo Link

HTML5   CSS3   Bootstrap

- Developed an interactive and visually appealing user interface for a Netflix clone using HTML5, CSS3, and Bootstrap.
- Ensured responsive design elements to support various devices and screen sizes for optimal user experience.
- Collaborated effectively with designers to translate visual mockups into fully functional web components.
- Implemented best practices for code quality and maintainability throughout the development process.

BigBaket Clone   Live Demo Link   Github Repo Link

HTML5   CSS3   Bootstrap

- Recreated an e-commerce website clone with a modern design and intuitive navigation using HTML, CSS, and Bootstrap.
- Focused on developing a responsive layout to ensure seamless user experience across various devices and browsers.
- Optimized website for performance, ensuring fast load times and improved interaction rates.
